

PISAY ASAP!★

ESPANO, NICDAO, ROMERO, SARMIENTO,
VILLALON

CS2 - GROUP 6 SAMPAGUITA

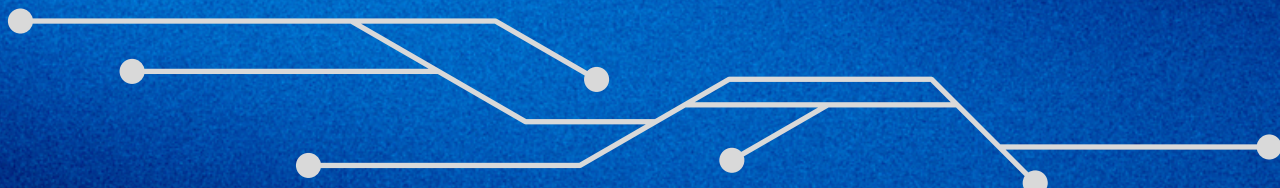

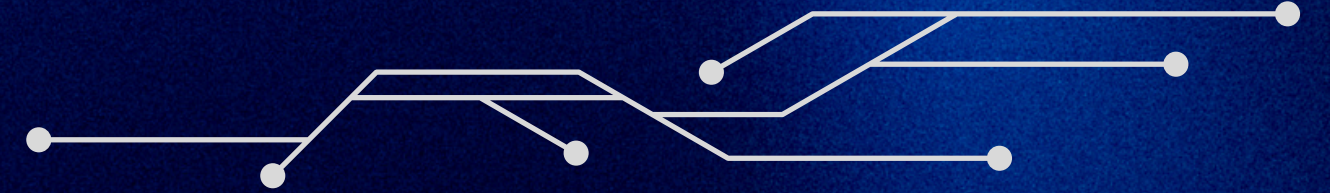

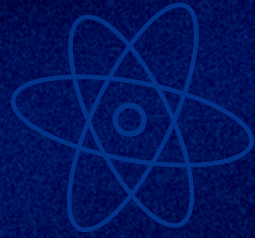

RATIONALE

Students and staff in PSHS-CALABARZON often experience long lines in the canteen or co-op.

In other places around the world, they combat long lines by creating a pre-order and pick-up application for their own restaurants.

In PSHS-CALABARZON, these solutions can be transferred over, it can be beneficial for the students, staff, and canteen workers. Shorter lines, easier way to order may be achieved.

PROJECT OVERVIEW

PROJECT NAME: Písay ASAP!★

CREATORS: GROUP 6 of G8
SAMPAGUITA!!

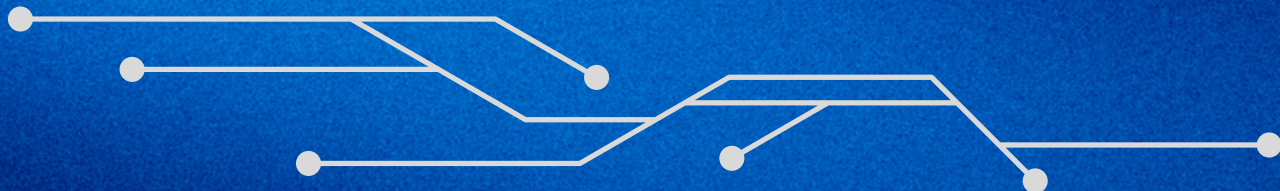

MAIN GOAL(s) :

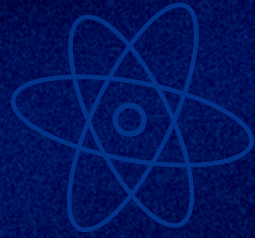

- Make ordering food a reality, not a dream
- Cut down on "nightmarish" waiting lines

PROJECT DETAILS:

- Our Program runs on Python
- We have a database, consisting of:
 - usernames + passwords
 - snacks, meals and drinks
 - prices of said snacks, meals and drinks

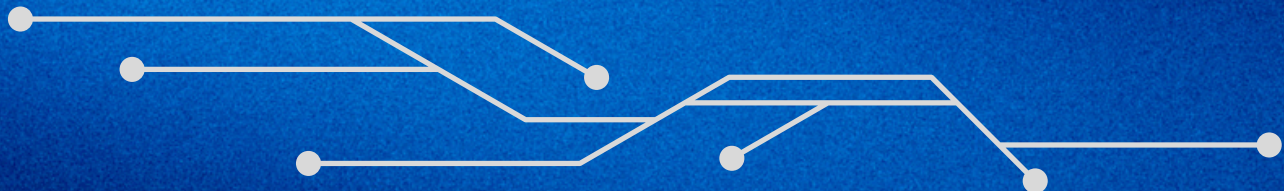

OBJECTIVES

Simple and Effective Food
Reservation

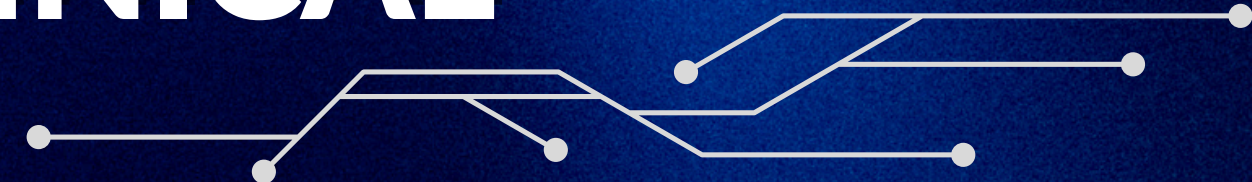

- Inventory Transparency
- Reduced Cafeteria Congestion
- Effective Serving
